

Safety and Comfort for the whole family !

HEPA FACE MASKS

.....*STAY SAFE , STAY HEALTHY*

FACE MASKS

USHA SHRIRAM had consciously expanded its footprint into the health products category two years back with the launch of Anti-Pollution HEPA Face Masks and had met with a favourable response. Worsening air quality has become a very serious concern in our country and across the globe in last few years. People of all ages are getting afflicted with respiratory diseases due to air pollution. High levels of PM2.5 particles, dust, pollen, odours and toxic gases such as Sox, Nox and CO in the atmosphere are taking a bill toll on our health.

And this year, with the onslaught of COVID-19, the use of Face Masks have become a must for everyone. In view of this, we have launched a wide range of Face Masks to keep you safe. SAFETY & COMFORT has been our prime concern while designing these masks. We have done extensive research and our masks have gone through rigorous testing both as per Indian and International standards. We have a wide range of N95 and N99 masks which have been certified by NABL accredited labs and are produced in a WHO certified factory.

USHA SHRIRAM Face Masks have a long list of Salient Features which include WASHABLE, REUSABLE, LONG LASTING, EXHALATION VALVE, SILVER IMPREGNATED ACTIVATED CARBON, ADJUSTABLE ELASTIC LOOP etc.

FRESCO (FM 99251 AC) N99 PM2.5

- 99% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 6 Layer Filtration
- Silver Impregnated Activated Carbon Filter
- Twin Exhalation Valve
- Easy To Wear / Comfortable Fit
- Washable / Rechargeable / Reusable

ACTIVO-s (FM 99252 AC) N99 PM2.5

- 99% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 6 Layer Filtration
- Silver Impregnated Activated Carbon Filter
- Exhalation Valve
- Easy To Wear / Comfortable Fit
- Washable / Rechargeable / Reusable

ACTIVO (FM 95252 AC) N95 PM2.5

- 95% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 5 Layer Filtration
- Silver Impregnated Activated Carbon Filter
- Exhalation Valve
- Easy To Wear / Comfortable Fit
- Washable / Rechargeable / Reusable

FACE MASKS

PURITO (FM 95251 A) F95 PM2.5

- 95% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 5 Layer Filtration
- Exhalation Valve
- Easy To Wear / Comfortable Fit
- Washable / Reusable

PURITO-f (FM 95254 A) N95 PM2.5

- 95% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 5 Layer Filtration
- Exhalation Valve
- Easy To Wear / Comfortable Fit
- Washable / Reusable

ENVIRO (FM 95253 A) F95 PM2.5

- 95% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 5 Layer Filtration
- Easy To Wear / Comfortable Fit
- Washable / Reusable

Available in a Pack of 3

CLARITO (FM 80251 A) F95 PM2.5

- 95% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 5 Layer Filtration
- Easy To Wear / Comfortable Fit
- Washable / Reusable

PURITO-KIDS (FM 95251 K) N95 PM2.5

- 95% Filtration Efficiency
- Filters Upto 2.5 Micron Particles
- 5 Layer Filtration
- Exhalation Valve
- Easy To Wear / Comfortable Fit
- Washable / Reusable

Healthcare Series

Hospital Mattresses
Pillows
Bed Sheets
Sofa Cum Beds

Our Licensee for Mattresses and Sleep Systems, TIRUPATI COIRS PVT. LTD., has recently launched the complete range of Hospital Mattresses, Pillows, Bed Sheets and Sofa cum Beds for Hospitals and Medical Facilities.

The Healthcare Series consists of a vast range of hospital mattresses and pillows that are designed to bring comfort and relief to those in the greatest need of it. Our team of highly trained professionals have worked hard to develop the range of hospital sleep products and bring you the very best in customer service. Whether you're searching for a single waterproof mattress or looking to source hospital mattresses for your organization, we can help. We supply specialist medical mattresses to hospitals, nursing homes, care homes, and more. From pressure relief mattresses to customised special mattresses, we're certain you'll find the ideal medical mattress for your requirements here at USHA SHRIRAM MATTRESS.

All USHA SHRIRAM Mattress Products in the Healthcare Series are treated with a unique **Zero Microbe Technology** that keeps the products fresh and sanitized by preventing the breeding of dust mites, bacteria, fungi and also eliminates bad odor.

- SOFA MATTRESS**
- MATTRESS PROTECTOR**

Lets Collaborate For a New & Healthy India.

Till the time a vaccine is found for Corona virus, all that we can do is to take safety measures and deploy all possible means to avoid getting infected and stay fit. Our immune system will play a vital role in fighting the virus : better the immune system, better your capacity to shield yourself from the virus.

WHO advice for battling the pandemic is vast and includes wearing a mask in a public place, washing hands after every 2 hours, practicing social-distancing, avoid getting cold and cough or fever, etc. Your health will play a major role in this and hence you are required to stay in a healthy and clean environment, sleeping at least for 8 hours to have a better immune system and remain calm and relaxed all day.

People facing anxiety issues or mental strain because of lockdown are not able to get a good sleep and are not able to concentrate on work. For good sleep, you need a planned routine and a good sleep environment. To help those who are facing sleep issues, Usha Mattress have come up with anti-bacterial mattresses that are made from Zero Microbe Technology. It would keep your sleep environment healthy and free from fungal infections.

HOW ZERO MICROBE TECHNOLOGY CREATES ANTI BACTERIAL MATTRESSES?

The mattress is passed through a Laminar Airflow Chamber in which it is exposed to high pressure and UV rays to kill any bacteria, virus, etc. and also protects it from giving birth to a fungal or allergic substance during the mattress life. Anti-Bacterial Mattresses have following features:

- Mattress has Zero Microbe Fabric which keeps it free from bad odor, fungus, dust mite, and bacteria. This means those who are allergic will have a peaceful sleep and would not be prone to cough and cold.
- It has Prolonged Product protection that makes sure that there is not a single growth of Microbes inside your mattress.

During the manufacturing process, the team at Usha Shriram Mattress follows strict WHO guidelines on workplace measures to combat COVID-19. These measures include :

- Temperature check of the employee before they enter the manufacturing unit.
- Gloves, Sanitizer, and Mask for all.
- Maintaining 3 ft distance at workplace.
- Untouched and Sanitized Mattress.
- People working at the unit are required to wash their hands in every 2 hours.
- Unit is sanitized twice a day.

Aloelife Pocket Spring Mattress with Aloe Vera Fabric is one of the many sanitized mattresses that is manufactured by Usha Shriram Mattress which is UNTOUCHED and SANITIZED. What further adds to this anti-bacterial mattress is Aloe vera is known for its natural healing property and it keeps your body relaxed and fresh.

SAFE, SECURE AND SANITIZED MATTRESS DELIVERY

To make sure that none of our customers or delivery executive get infected during the process of packing and delivery, there is a double packing done to the anti bacterial mattress ordered and is placed in a cardboard box.

1. Once the executive reaches your place, he/she will call you from a 6 ft. distance.
2. Your order will be left outside.
3. You will be required to confirm order details vocally.
4. We request you not to open the mattress for the next 24 hours.
5. Mattress inside is already sanitized and made from Zero Microbe Technology so nothing to worry.

SOLAR PRODUCTS - Dealer Meet

USHA SHRIRAM SOLAR PRODUCT Super Distributor “Tyre House” in Lakhimpur Kheri organised a Dealers Meet for Solar products.

The Company and Distributor were both overwhelmed with the response of the dealers who showed their love and affection for the Brand “USHA SHRIRAM” and Mr. WASIF (Owner of Tyre House) by gracing the venue in large numbers, well above 125. Mr. Satnam Singh Sandhu (Dy. Executive Director-Usha Shriram Enterprises Pvt. Ltd.) graced the occasion as the Chief Guest for the evening.

Mr. Ankur Mahendru & Mr. Anshul Mahendru of M/s. Ankur Traders & Engineers Pvt. Ltd., our Authorised Licensee for Solar Products presided over the function. The evening started with a presentation on New Products, followed by the distribution of certificates and awards. It was then followed by cocktails and dinner.

EXHIBITION PARTICIPATION

Export Promotion Council of India organised the **International Engineering Sourcing Show** in Coimbatore in March 2020.

Our Brand Licensee for Solar Products M/s. Ankur Traders & Engineers Pvt Ltd, participated in the Expo with USHA SHRIRAM Solar Products.

SOCIALLY RESPONSIBLE.....

During the lockdown in the months of April/May, our Company took up its social responsibility, in a small way, by operating its office canteen kitchen to cook meals for the needy.

Our canteen cooked healthy food such as Rajma-Rice, Kadhi-Rice, Choley-Rice everyday. This was then distributed to the daily labourers, slum dwellers and migrant workers in and around our office in Naraina in hygienically packed containers. The quality of food was highly appreciated by all.

The team which made this possible, inspite of lock-down conditions included Mr. Shailendra Vashist (Administration Head), Mr. Rahul Rai (Accounts), Mr. Hritik (Canteen) and Mr. Sanjay Singh (Office Guard). **Kudos to these Superstars !**
